About this book

This book is a five-day practice course in the times tables. It covers every table from 2 to 12, and each table is followed by a set of pages that mixes it with every table before it.

That order matters. A child who has only ever done the 7 times table is not really practising the 7 times table - they are practising the 7 times table and everything they remember of the others. Each table gets five pages of its own, and each mixed set gets five pages of its own: one for each day of the week.

How to use this book

- One page a day. Every skill has five pages: Monday to Friday. A short, focused page is worth more than a long one, and a page done every day beats one long session at the weekend.
- The Date field is for the day the page was done, so a parent or a teacher can see at a glance how the week went.
- The answer book has the same pages with the answers printed under the line. Use it to mark the work, not to copy it.
- If a page is too hard, leave it and come back to it the next day. If it is too easy, the harder version of that skill is further on in the book.

Every sheet in this book comes from mathcardo.com, where thousands of free printable worksheets and three maths games for every worksheet are waiting.
